• Simple polling system

This is a web base result management system using javaEE servlet back-end with MySQL database.and frontend with Angular.

• Mysql Client Shell Application

This application is a JavaFx Application. That application provide graphical user interface to interact with mysql server as a client. to developed that application using Java Process Builder api

• Java App Runner

This is a Javafx application which uses the java process class to carry out various process's. To be more specific, this application will use the process clas inorder to execute java code then compile, run and provide the necessary outputs. in addition the system will handle both compile time and runtime errors.

• Custom Search Engine (Google Clone)

Google Search-Engine Interface with searching functionality and customized search results

EDUCATION

- Bachelor of Information and Communication Technology (2018 - 2021)
Sabaragamuwa University of Sri Lanka.
- G.C.E.(Advanced Level) Examination 2016
Index No-1925164
- G.C.E.(Ordinary Level) Examination
Index No-21375534

PROFESSIONAL QUALIFICATIONS

- NDG Linux Essentials
Cisco Networking Academy
- Java certification
Sololearn
- Fundamentals of digital marketing
Google Academy

EXTRA CURRICULAR ACTIVITIES

- committee member of the Art Festival Organizing Team in University
- Member of IT society in faculty.
- Karate blackbelt 1st Dan.
- All Island first place in karate kata and kumite championship.
